About Me

A self-taught developer who loves solving problems and building practical, high-impact digital products.

Created 100+ websites and services for clients in Finland and abroad, along with my own sports, booking and eCommerce platforms. Implemented REST APIs with Node and PHP, and delivered web apps used by tens of thousands.

Comfortable working with modern frontend frameworks like React, Vue, and SvelteKit.

Languages: Finnish, English

Professional Experience

Tuspe Design Oy | CEO, Full-stack Developer

2016 – Present

Building modern applications, integrating payment services, and managing multiple SaaS platforms.

Skill: SvelteKit, PHP, REST API, SQL, ProcessWire, AI tools, GitHub, Cloudflare, SEO, customer service, Linux servers

Koivu Solutions Oy | Frontend Developer
